

Dolomites High Peaks Via Ferrata- Gear List

Considerations

Packing for a mountain trip is a balancing act. You want your pack to be as light as possible so you can truly enjoy the trek. But you also need to have enough gear to be warm (or cool), comfortable, and well-fed and watered. When buying, renting, or borrowing gear for the trip, please keep weight, performance, and function in mind.

Clothing

We recommend the 'layering system': Bring light, technical clothing that doesn't take much space in your backpack and dries quickly when sweaty or wet. Layers must be put on and taken off quickly as weather conditions change during the day. There may be days when you can wear cotton, but your main clothing choices should be synthetic or wool. Merino wool is a nice material for base layers and t-shirts because it is comfortable, warm, and it does not retain odours, even after many days of use.

- ☐ Lightweight wind and water-resistant over pants (Gore-Tex or similar)
