

Oetztal Alps High Alpine Hut Trekking-Gear List

Considerations

Packing for a trekking trip is a balancing act. You want your pack to be as light as possible so you can truly enjoy the trek. But you also need to have enough gear to be warm (or cool), comfortable, and well-fed and watered. When buying, renting, or borrowing gear for the trip, please keep weight, performance, and function in mind.

Technical Gear

This section is divided into 3 portions: Gear provided by OnTop on request, gear provided by your guide and gear you need to provide yourself.

Bring the Following:

- ☐ Light mountaineering boots or sturdy, waterproof hiking boots that cover your ankles (make sure they are comfortable and don't give you blisters!)
- ☐ Backpack (35-45 litres) with rain cover fitted to the pack
- ☐ Collapsible ski poles

Provided by OnTop Mountaineering, Upon Request:

Should you require the use of this gear, please inform your Trip Coordinator. This rental is included as part of your trip package.

- ☐ Ice axe for glacier travel (50-75 cm long)
- ☐ Crampons with anti-snowballing plates (usually integrated into modern crampons) that are suitable for your boots. Note: rigid crampons will not work on hiking boots
If you require specialty sizing please let us know with your request.
- ☐ Harness for glacier travel
- ☐ One triple-action locking carabiner or two conventional locking carabiners

Your Mountain Guide Will Bring the Following:

- ✓ Ropes for glacier travel
- ✓ Crevasse rescue equipment (Prusik cords, webbing, pulleys, auto-locking device)
- ✓ General repair kit and Leatherman
